About our presenters:

Am. Samoa Department of Homeland Security (AS DHS) Cyber Security Team:

The AS DHS Information Technology (IT) section also functions as its cybersecurity team responsible for managing and implementing systems security within the department. Randall Fitisone, Emergency Communications Coordinator (ECC) and Timothy Woodard, IT Specialist, Special Agent and Fusion Center Project Coordinator make up the ad hoc cyber security team at AS DHS. Peter Nomura is the current IT Manager.

Grace Tulafono-Asi, IT Manager, Department of Treasury

Grace Tulafono-Asi has been working in the field of IT in American Samoa for the past 16 years. She spent 12 years as the Chief Information Officer (CIO) for the American Samoa Community College (ASCC), where she served as the first Chairperson of the Information and Communications Technology (ICT) Academic Department created in 2004 at ASCC and elected as the first Chairperson for the Cybersecurity Working Group (CSWG) formed in 2011 under the American Samoa Department of Homeland Security (ASDHS). In 2016, she moved to Department of Treasury (DOT) as the IT Manager, responsible for core financial systems that support the Financial (including Tax, Payroll and Purchase) processing of the ASG as well as provide IT support for DOT and other core agencies. Grace has a Master of Science in Information Systems from Hawaii Pacific University, and a Bachelor of Science in Business Administration with an Option in Management Information Systems (MIS) from Chadron State College.

Chuck Lerch, CEO, Hi Tech Hui

Chuck Lerch is an expert in Security Architecture and Infrastructure. Chuck brings to the Pacific Islands and Mainland U.S. extensive experience in the critical infrastructure healthcare, construction, and other industries with demanding security, scalability, and resiliency requirements to help customers plan practical strategies. His diverse experience with multiple industries and startups has helped him solve the most technical and complex security problems. Chuck's previous experience includes working with the DOD and FAA, serving as CIO for a National Healthcare Company that created physician-based healthcare in Sears and Kmart, and serving as CIO for a family of technical companies with physical and cloud hybrid presence in multiple data-centers around the world. His passion for secure networks is what lead him to his love and vision to bring cybersecurity solutions to Hawaii the Pacific Islands and the Mainland U.S. HI Tech Hui is a locally-owned cyber security and IT services consulting firm that has a 24/7 SOC (Security Operations Center). HI Tech Hui is a Hui of technical experts, and work with a vast network of IT and cyber security experts on a daily basis. HI Tech Hui's executive team has worked with large local businesses and global Fortune 500 firms including: Amazon, Zappos, Gap, Barclays, Wall Street, Microsoft, Accenture, Cylance, Fireeye/Mandiant and many others. HI Tech Hui is home to 26 employees and consultants, and yes we are hiring! We have multiple positions right now!
